time-saving tools such as:  
*Commercial Real Estate Transactions Handbook* includes

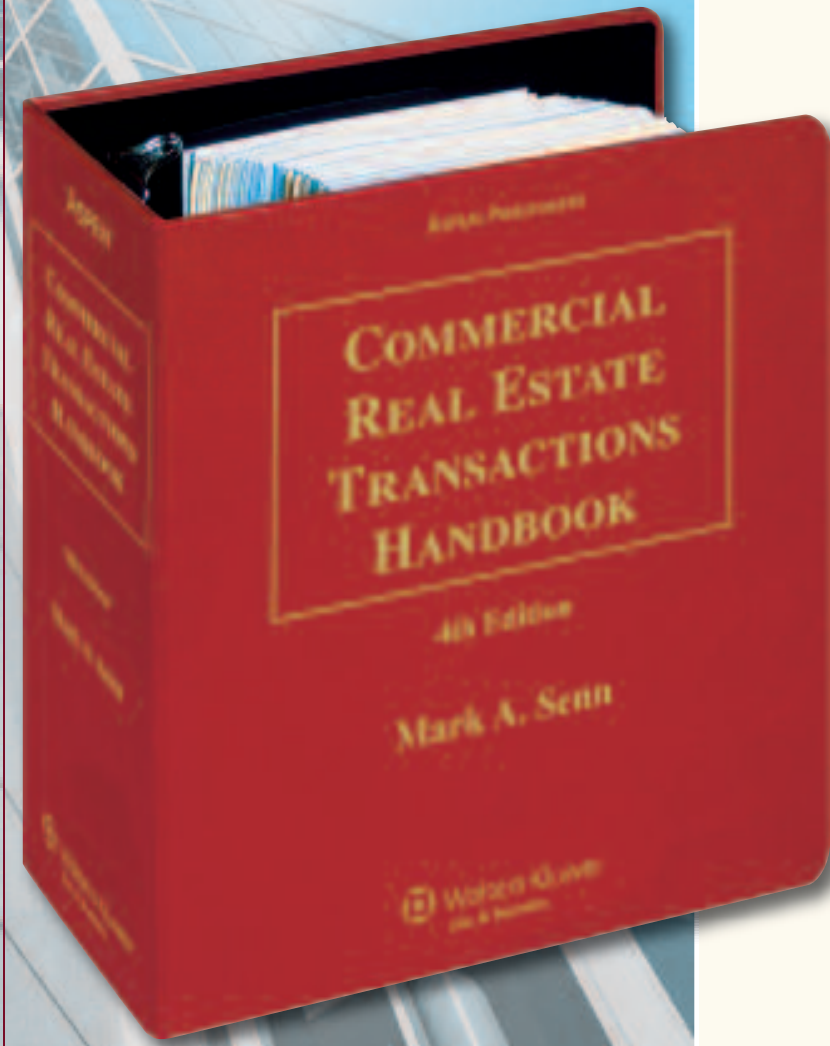

Plan, negotiate and  
close commercial  
real estate deals

## Current, comprehensive coverage of commercial real estate transactions

The new edition addresses the latest legal developments and business issues you may encounter in commercial real estate matters including:

- Easements
- The government's use of eminent domain
- Compliance with economic development and redevelopment statutes
- The provisions of the innovative, new design and construction contracts called ConsensusDOCS
- Guidance on how to avoid environmental liabilities
- Solutions to acquisition and management problems in hotels and other operating businesses
- Choosing the best ownership entity and structuring its management
- And more

# Need practical solutions to today's difficult transactional issues?

With the number and complexity of commercial real estate transactions reaching unprecedented levels, professionals in this high-stakes industry face a daunting task: keeping up with the constant legal and regulatory changes that can impact every phase of a deal.

*Commercial Real Estate Transactions Handbook* will help you overcome challenges and obstacles using the insights and strategies of nationally recognized real estate attorney Mark Senn and more than 20 experts in the field.

## Examines issues from a real-world, transactional perspective

Collectively, the editor and contributors have handled virtually every possible variation of commercial real estate transactions. Their clear, concise discussions will guide you step-by-step through each phase:

- Land and space acquisition
- Creating the owning entity • design and construction
  - due diligence • interim and term financing, and occupancy leases
- The ultimate sale or disposition of the project
- Loan transactions

In addition, *The Handbook* is logically organized by topic, so you always find the information you need quickly and easily. Each chapter covers one topic area. Major subjects are then distilled into highly informative sections that focus on specific practice-oriented suggestions from the unique perspective of the "less experienced" or "disadvantaged" party.
